THE CONDITION OF TRADE.

"Bradstreet's" Weekly Summary from Our Eastern Centers.

An Unprecedented Situation in the Jobbing Line, with Complications Arising—The Worst Half of Winter Ends—The Most Serious in Recent Years—An Improvement in the Condition of the Iron and Steel Markets.

New York, April 7.—(Special.)—Bradstreet's Weekly Commercial Review for the New York trade this week has the aggregate business done fairly to such proportions. The weakness of the demand, here with appears was primarily the result of the fact that so many classes of consumers, generally, in business as well as social and other matters, have completed their spring purchases. The weekly report "ending" for February, noted last week, continues a series of this character in the great majority of the trade. The most favorable aspect of transactions centers about the class of the trade in textile lines, as probably likely to result in a better tone in the reports from the West and Northwest. The effect of this improvement over a period of about eighteen days, and which is now beginning to exhibit itself in the jobbing trade, will be to swell the volume of business in the spring months. Reports from the country generally, and from the trade of the city itself, indicate a backward movement in the distribution of the goods that were ordered in anticipation of the spring trade, and which are now coming forward in response to the demand. Why We Are Confident

OF THE SUPERIORITY OF HOOD'S SARSAPARILLA

Strong Reasons Which the Public Should Know

We do not wish to be understood as claiming that Hood's Sarsaparilla will cure all diseases, but we do claim that it will cure all diseases for which it is recommended, and we have the best reasons for making this claim. We know that Hood's Sarsaparilla has cured thousands of cases of scrofula, salt rheum, boils, and other blood diseases, and we know that it has cured thousands of cases of rheumatism, dyspepsia, kidney and liver complaint, catarrh, and that it has given perfect health to thousands who have been afflicted with these troubles for years. Other Sarsaparillas

For many years the word "Sarsaparilla" has been applied to an almost infinite number of combinations and nominal imitations of medicines of sarsaparilla and blood-purifying properties. Some of the most widely known proprietary preparations, and in many the quantity and proportion of sarsaparilla are extremely small. It may not be to the best of facts so as to mislead and deceive many minds, as to the comparative merits of Hood's Sarsaparilla and other preparations, and to induce a trial of some of these worthless imitations. Hood's Sarsaparilla is the best of all, and the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine.

We Suggest

That in considering Hood's Sarsaparilla, or in the purchase of any article offered to the public, you will be governed by the following facts: Hood's Sarsaparilla is the best of all. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine.

The Western Edge of Life

Many times people feeling a lack of strength and vigor and when they need a stimulant, take a certain spirit to excess and form habits which are worse than the disease. Hood's Sarsaparilla is a true tonic and stimulant, containing the best blood purifying, strengthening and invigorating medicines known to the medical profession, and when taken according to directions it will not only relieve that tired feeling, but will create an appetite for food, give refreshing sleep, and overcome that depressing languor which so many people call spring fever. Hood's Sarsaparilla is the best of all. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine. It is the only one which can be truthfully called a medicine.

"My children had all gotten sick, without exception, with scrofula sores. Several physicians gave up the case, saying that nothing could be done. I was induced to try Hood's Sarsaparilla, and before I had taken one bottle I could see a change for the better. I continued its use, and my children are now entirely well. They have not had a sick day since. I cannot say too much in favor of Hood's Sarsaparilla." MRS. M. A. HOLLAND, Lowell, Mass.

REMARKABLE CURES IN THE GREAT LAKE CITY

Effected by Hood's Sarsaparilla—Blood-Poisoning

"My blood became poisoned from drinking stone water contained in old tank in which cider had been stored. I was a terrible case, with running sores, and I received the worst form of treatment. The physicians feared the result would be death. I suffered intense torture at the time and there is no use of me to tell you the difference I found then from taking Hood's Sarsaparilla. I began taking Hood's Sarsaparilla quickly, became well, and the taking has no more passed out my mind to be a most terrible condition. Suddenly I could not sleep for one solid week, but as I was using Hood's Sarsaparilla I knew it was doing me good, and so continued it. I completed the bottle and was entirely cured." Salt Rheum—Intense Suffering

"I was prepared to recommend to the public Hood's Sarsaparilla, for it has done wonders for me. I had salt rheum very severely, which my sufferings nearly set crazy. Many doctors who have suffered from the disease in its worst form was treated for several months, but failed to derive any benefit. I determined to resort to my sufferings. I took three bottles of Hood's Sarsaparilla. This changed the case to success, the entire complaint was cured." [illegible] 1900 Stone State street, Chicago, Ill.

"HOW does one always look after using the Ivory Soap."

"Yes, that's because it rinses off so easily. My attention was attracted to the soap by seeing an analysis of it published, in which it was shown that the "Ivory" was a well made soap, that the alkali is so thoroughly combined with the oils, that it has more than ordinary cleansing power and there is nothing sticky or greasy about it."

A WORD OF WARNING.

There are many white soaps said represented to be "just as good as the "Ivory"," they ARE NOT, but they all contain free, but the peculiar and unattainable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Spiritualism Exposed.

"Hare Padua" is the most apropos of stories. Had Mr. Bonner been prophetic he could not have promulgated more closely that distressing case of intoxication which occupies public attention today in New York. —*N. Y. Times.*

An absorbing story. You are pretty sure to stay up far into the small hours to finish it.—*N. Y. Herald.*

The Commercial Advertiser SAYS:

"To all who know anything of H. Renan's "Life of Jesus" it will be no surprise that the same writer has told the *"HISTORY OF THE PEOPLE OF ISRAEL TILL THE TIME OF KING DAVID"* as it was never told before, nor is ever like to be told again. For but once in centuries does a Renan arise, and to any other hand this were impossible. Throughout it is the perfection of paradox, for dealing wholly with what we are all taught to lay at the mother's knee, it is more original than the wildest romance; more heterodox than heterodoxy, it is yet full of large and tender reverence for that supreme religion that brightens all time as it translucids all creeds." 8vo.
